THE FREE ACADEMY.

THE FREE ACADEMY of the City of New York is the first institution established in this State by the popular sovereignty, and maintained at the public expense, for the purpose of extending to the pupils of the Common Schools the advantages of free education in the higher departments of learning.

The Board of Education of the city of New York took the first action in reference to the establishment of this institution, by the adoption of a resolution, introduced by Commissioner TOWNSEND HARRIS,* July 27, 1846, proposing a Committee to report upon the subject. On January 20th, 1847, a report was presented by said Committee, recommending the establishment of a "*Free College or Academy*," and representing its nature and object in this language: "Your Committee will briefly remark, that their design is to offer the idea of a college, in which, while it shall be in no way inferior to any of our colleges in the character, amount, or value of the information given to the pupils, the course of studies to be pursued will have more especial reference to the active duties of operative life, rather than those more particularly regarded as necessary for the pulpit, bar, or the medical profession."

The report was published, and considered at a meeting of the Board held on the 10th of February, 1847, when a committee was appointed to draft a memorial in the name of the Board, to be presented to the Legislature, praying, among other things:

First.—"That the Legislature will be pleased to pass a law directing the Regents of the University to pay over to the Board of Education such amount of the literature fund as may be apportioned by them

* Now Resident Minister at Japan.

“ to the third, fourth, fifth, and sixth Senate Districts of this State ; such
 “ moneys to be applied to the support of a Free College or Academy in
 “ the city of New York, for the instruction of students who have been
 “ pupils in the Common Schools of the said city.”

Secondly—“ That the Legislature will further authorize the Board of
 “ Education in said city to call on the Supervisors, from time to time, to
 “ raise by tax such sums as may be required for the erecting, furnishing,
 “ and fitting up of said College or Academy, and supporting the same,
 “ such sums to be notified to, and raised by the said Supervisors, in the
 “ same manner and under the same heading of taxation that the moneys
 “ for the support of Common Schools in said city are now raised.”

This memorial was drafted and presented to the Legislature, offering, amongst others, the following views and purposes :

“ One of the important objects designed to be secured by establishing a Free Academy is, to bring the advantages of the best education that any school in our country can give within the reach of all the children of the city whose genius, capacity, and desire of attainments are such as to render it reasonably certain that they may be made, and by such means would become, eminently useful to society ; the permanency of our free institutions, the future state of society, the extent to which the laws of the country will be regarded, and social quiet and order preserved, depend essentially upon the virtue and intelligence of the people.”

“ Another object of the proposed Free Institution is, to create an additional interest in, and more completely popularize the Common Schools. It is believed that they will be regarded with additional favor, and attended with increased satisfaction, when the pupils and their parents feel that the children who have received their primary education in these schools can be admitted to all the benefits and advantages furnished by the best-endowed college in the State, without any expense whatever. It is believed that such an institution as the proposed Free Academy is designed to be, in addition to the great benefits it will

confer by annually graduating a large number of highly educated young men, destined to pursue some of all the various pursuits in life, would stimulate tens of thousands, who might never enter into this Academy, to additional industry and greater advances while in the common schools. The certainty to a young man of good abilities, and desirous of making large acquisitions in knowledge, of having the opportunity of gaining as extensive an education as can be acquired in any institution in the State, if his parents can only furnish him the means to subsist at home, is in the highest degree cheering, while the certainty that the limited earnings of his parents will preclude him, in the existing state of things, from having any such advantages, tends to repress such generous aspirations, paralyze effort, and prevent the full development of his ability to become extensively useful to the class in which his lot may be cast, or to society at large."

Such were the objects presented to the Legislature, to induce the passage of the law authorising the establishment of the Free Academy. The people were promised an institution which, in the character, amount, and value of the education imparted, should be inferior to none of our colleges, at the same time should be so organized that the course of studies to be pursued would tend to educate the pupils practically, and qualify them more particularly to apply their learning to advance and perfect the operations of the various trades and occupations in which they might engage ; and, also, should furnish peculiar facilities for the instruction of the highest order in various branches of knowledge omitted altogether in other colleges, or not practically taught. The views were approved by the Board, and concurred in by succeeding Boards. They have always considered "the Academy as a part of the Common School system of the city, by which, in easy and continuous development, students may pass on as far as they are able to the higher levels of literary and scientific education—an institution uniting in a properly progressive system the usual duties of the American Academy and the American College—retaining always its characteristic peculiarity of an agency of the government in offering to all the people, equality, the means of educating their sons up to the point from which they respectively are to start in the pursuits of manhood and citizenship, and meet-

ing the wants not only of those whose wealth is largely taxed to support education, but of those more numerous, whose aggregate taxes are still larger, and also those whose more slender resources are subject to no direct pecuniary tax, but who, in numberless indirect exactions, contribute their full share in supporting the burdens of organized society."

The Act authorizing the Board to establish a Free Academy was passed May 7th, 1847, providing, as a condition to its becoming a law, that the question whether such Academy should be established according to its provisions, should be submitted to the people at the election to be held on the first Monday in June, 1847, and that a majority of the votes given must be in favor of the proposition. The question was so submitted, and 19,404 votes were given in favor of it, to 3,409 against—being a majority of 15,995.

"This institution the undersigned have examined. There is no luxury in it. Throughout it is without ornament. Its furniture and appointments, as well as the buildings, are of the plainest character. It is well conducted; its order and discipline, apparently, all that can be desired. By nine o'clock in the morning, 700 students are at their posts in the academic hall; in a few minutes after, they are all in their class-rooms with their professors. It seems throughout like the perfection of order, method, and discipline."—Extract from the Report of Commissioners, appointed to secure the establishment, government, &c., &c., of Common Schools in the City of New York. Dated December 30th, 1857.

ORGANIZATION OF THE FREE ACADEMY.

By the statute it is made the duty of the Board of Education :

“To continue to furnish, through the Free Academy, the benefit of education gratuitously to persons who have been pupils in the Common Schools of the said city and county, for a period of time to be regulated by the Board of Education, not less than one year.

“To supervise, manage, and govern said Free Academy, and make all needful regulations therefor; fix the number and compensation of teachers and others to be employed therein; prescribe the preliminary examination, and the terms and conditions on which the pupils shall be received and instructed therein and discharged therefrom; direct the course of studies therein, and provide in all things for the good government and management of the said Free Academy; and purchase the books, apparatus, stationery, and other things necessary and expedient to enable the said Free Academy to be properly and successfully conducted and to keep the said building or buildings properly repaired and furnished. And the Board, upon the recommendation of the Faculty of the Free Academy, may grant the usual degrees and diplomas in the Arts, to such persons as shall have completed a full course of study in the said Free Academy.

“To appoint annually a standing committee of not less than five persons of their number, who shall, subject to the control, supervision, and approbation of the said Board, constitute an Executive Committee, for the care, government, and management of the said Free Academy, under the rules and regulations prescribed as aforesaid, whose duty it shall be to make detailed reports to the said Board of Education, and, among other things, to recommend the rules and regulations which they deem necessary and proper for the said Academy.”

The organization of the institution, based on the above enactments, is shown in the following digest of the By-Laws of the Board of Education and regulations of the Faculty.

REQUIREMENTS FOR ADMISSION.

The examination of candidates for admission takes place immediately after the general examination in July. No student can be admitted to the Academy unless he reside in the city, be fourteen years of age, shall have attended the Common Schools in the city twelve months, and shall pass a good examination in

Spelling,	Algebra, as far as quadratic equa-
Reading,	tions, inclusive,
Writing,	Geography,
English Grammar,	History of the United States,
Arithmetic,	Constitution of the United States,
Elementary Book-keeping.	

No candidate can be examined for admission unless he shall present to the Principal of the Academy a certificate in the form prepared by the Executive Committee, signed by the Principal of the School or Schools of which he has been a member, and specifying the age of the candidate, the Common Schools of this city which he has attended, the dates, and the length of time of his attendance in each. If the number qualified for admission be more than can be admitted, the preference is to be given to those who have attended the Common Schools the greater period.

At either of the regular examinations, candidates may be admitted to one or all the classes, to pursue the studies of any one or more departments, provided they shall have attended the Common Schools the requisite period—shall be of the proper age—shall pass the proper examination for admission, and also an examination satisfactory to the Faculty, in the previous studies of the class or departments to which they wish to be admitted.

No person is allowed to be present at the examination for admission except the instructors in the Academy, the members of the Board of Education, and other school officers; neither the names of the candidates, nor the schools from which they are sent, are made known to the instructors conducting the examinations, but each candidate is designated, during examination, by a number given to him on a card by the

Principal. Only the names of such as have passed a good examination are afterwards ascertained, in order to be inscribed on the Rolls of the Academy.

Students are not allowed to reside or board in the Academy; they reside or board with their parents or guardians. By removing from the city, they forfeit the right to remain in the Institution.

Graduates may become Resident Graduates, and continue their studies at option.

DISCIPLINE.

The discipline of the Academy is mild, persuasive, and just, but steady, strict, and unyielding.

The punishments inflicted are demerit marks, private admonition, admonition by the Principal in the presence of the Section and of the Instructor in the recitation room, suspension by the direction of the Principal, public admonition by the Principal in presence of all the students at roll call, final admonition by the Principal in a meeting of the Faculty, and dismissal for misconduct, to be directed by a vote of the Faculty.

Every violation of the rules is recorded in the *Book of Discipline*, together with the degree of punishment inflicted, and the amount of demerits received. No student is demerited without receiving notice of the fact and the cause.

Every student admitted into the Academy receives a certificate thereof, stating that on leaving the Institution with a good character, after one year, he shall receive another certificate or diploma, stating the period he has been in the Academy, and the studies there pursued by him, provided he shall have satisfactorily accounted for all the books and other property committed to him; but no student shall receive a certificate of dismissal if he be dismissed for misconduct; and in each certificate it shall be stated that the recipient is furnished with a statement of his standing in the Academy, as it appears on the records during his whole connection with the Institution.

OFFICERS OF INSTRUCTION AND GOVERNMENT.

The studies are pursued under the following Academic Officers, appointed by the Board of Education :

The Principal, who is Professor of Moral, Intellectual and Political Philosophy.

A Professor of English Language and Literature.

A Professor of the Latin and Greek Languages and Literature.

A Professor of French Language and Literature.

A Professor of German Language and Literature.

A Professor of Spanish Language and Literature.

A Professor of History and Belles-Lettres.

A Professor of Pure Mathematics.

A Professor of Mixed Mathematics.

A Professor of Chemistry and Physics.

A Professor of Natural History and Physiology.

A Professor of Drawing.

An Adjunct-Professor of Philosophy.

An Adjunct-Professor of Pure Mathematics.

And as many tutors as may be from time to time required.

The Faculty shall consist of the Professors and Adjunct-Professors.

The choice of each student as to the course of studies he intends to pursue, must be made in writing, and registered and filed at the Academy. It must be made by the parent or guardian, or by the parent or guardian be submitted in writing to the discretion of the Faculty. It is important that the subject be carefully considered before the selection be made, as from considerations of advantage to the student, as well as from a proper regard for the orderly working and discipline of the Institution, as, when once commenced, the same course must be pursued as long as the student remains in the Academy.

The classes are annual, and the full course of studies embraces five years, of two terms each.

The following table exhibits the full course of studies for each class and term, with the text-books used, and the number of recitations per week.

Exercises in declamation and composition are required once a month from each student, and original declamation from the students of the Senior and Junior Classes.

EXAMINATIONS.

There are two public examinations during the Academic year. The first commences on the first Monday of February, the second on the third Monday before commencement, comprising eight days. The examinations are conducted by the officer in charge of each study, and no student is allowed to advance to the next class without being found qualified for such advancement. A student found deficient is not put back into another class, except at the request of his parent or guardian ; but, if any student shall, in any of his studies, have made so little progress, or, in his conduct, shall have been so disorderly as not to have an average rate of at least half the maximum on the last Merit-Roll, he is rated as deficient and so recorded ; and, if rated as deficient on two successive Merit-Rolls, he is dismissed from the Academy.

MERIT ROLL.

The Merit-Roll is made up immediately after each examination. On this roll each student is ranked according to his standing in his class, indicated by the amount of merit marks received during the term, for conduct, recitations, and examinations. The roll is divided into four categories—Highest, High, Good, and Low—denoting the highest, and those whose marks amount to one-third, one-half, and two-thirds below the maximum respectively.

The maximum of merit in any study or exercise is ascertained by multiplying the whole number of exercises of the class or section during term-time by ten, which is the maximum of merit in each recitation.

The maximum of merit in any examination is ascertained by multiplying the number of recitations per week in each subject by one hundred.

The maximum of conduct is ascertained by multiplying the whole number of Academic days by ten; and the rate of conduct is ascertained by deducting from such maximum all demerit marks.

The Merit-Roll is signed by the Principal, and after being printed by the Executive Committee, is sent to the parents or guardians of every student.

TERMS AND VACATIONS.

The exercises, during term-time, are from 9 A. M. to 3 P. M. The doors are closed for roll-call at precisely 15 minutes before 9 o'clock, when all the students are to be in their seats in the Hall of the Academy, and all the officers in attendance.

There are three vacations in each Academic year—the summer vacation, from commencement to the third Wednesday in September; the winter vacation, from the 25th day of December to the 1st day of January, inclusive; the spring vacation, from the last day of April, inclusive, one week. There are no Academic exercises on Saturday, on the day celebrated as the Anniversary of American Independence,

and on Thanksgiving Day. The first Academic term commences at the end of the summer vacation, and the second at the end of the first examination.

DEGREES.

The Board of Education is authorized by law to confer the usual Collegiate Degrees, on the recommendation of the Faculty. The degrees are *Bachelor of Arts*, for those who have pursued a full course with ancient languages; *Bachelor of Sciences*, for those who have pursued a full course with modern languages, and the degrees of *Master of Arts* and *Master of Sciences*.

The Faculty recommend no one as a candidate for either degree whose average standing in any study of the Senior year has fallen below seven-tenths of the maximum. Each member of the graduating class is required to write a composition for oral delivery, to be sent in one week before Commencement. Orations and dissertations written for this occasion are not to exceed seven minutes each in length, with the exception of the Valedictory and Salutatory Orations, which may be extended to ten minutes. All these compositions must be written upon letter paper of good quality of the usual quarto size, with a suitable margin, so that, if it be desired to bind, it may be done without injury to the writing.

A Bachelor of Arts, or of Sciences, of three years' standing, may be admitted to the degree of *Master of Arts*, or to that of *Master of Sciences*, provided he show, to the satisfaction of the Faculty, that in the interval he has been engaged in some literary or scientific pursuit, and has sustained a good moral character; application to be made either personally or by letter, at least one month before Commencement, accompanied by an original paper on any subject, and certified under his own hand to be his own composition, written within six months before his application.

COMMENCEMENT.

The Commencement of the Academy is held on the Tuesday before the third Wednesday of July in each year, at a place provided by the Executive Committee. The President of the Board of Education presides on that occasion.

The performances of the graduating class on Commencement Day are eight orations, and no less than eight nor more than twelve dissertations. Of the orations, the Valedictory is the highest honor of that nature in the gift of the Academy, and is assigned to the student who stands highest on the Merit-Roll, reckoning from the beginning of the Freshman year. The Salutatory oration is the second honor, and the Philosophical oration is the third ; and these are given to the students who rank second and third on the Merit-Roll. The other five remaining orations constitute the fourth, fifth, sixth, seventh and eighth honors, and are given to the students who rank from fourth to eighth on the Merit-Roll. The dissertations are given to such students in the graduating class as particularly excel in rhetorical merit. There is also a Master's Oration, pronounced by one of the candidates for that degree, appointed by the Faculty.

After the exercises of the Graduating Class, the distribution of the diplomas takes place, and also that of the various prizes hereafter described.

MEDALS.

THE PELL MEDAL.

In 1849, Duncan C. Pell, Esq., placed in the hands of Trustees \$500 to be invested, and the income to be applied annually, forever, to procure a gold medal, to be awarded by them to the student in the Free Academy who may have made the greatest proficiency in his general studies during the year.

In 1856, the above-named donor, by a deed of trust, authorized the Trustees of the said Fund, if to them it should appear expedient, to devote a portion of the income of the Fund to the procuring of a *silver medal*, to be awarded to such student as might become entitled thereto.

MONEY PRIZES.

Augustus H. Ward, Esq., of this city, has offered yearly, since 1854, the necessary funds to award money prizes to the recipients of the various medals above enumerated.

The conditions upon which these prizes were awarded, at Commencement, 1861, were as follows :

Five dollars for each medal : And in addition, to the recipient of two medals, ten dollars for the second ; to the recipient of three medals, twenty dollars for the third ; to the recipient of four medals, forty dollars for the fourth ; and ten dollars for each additional medal.

Should the gainers of these prizes wish to purchase testimonials therewith, they can have inscribed on them :

“This testimonial is purchased with the prizes obtained by . . .
. . . of the New York Free Academy, in the year . . .”
(Signature of the Faculty.)

PRIZES FOR DECLAMATION.

PROSE.

In 1852, Erastus C. Benedict, Esq., then President of the Board of Education, offered a prize for excellence in *Public Speaking*, to be

called the "PRIZE OF THE PRESIDENT OF THE BOARD OF EDUCATION." The speakers contending for this prize are chosen by ballot from the three higher classes, two from each class, by their class-mates, and the six so chosen are the only competitors for the prize. They speak selected pieces, and the speaking forms a part of the preliminary proceedings of Commencement; the prize is awarded by a committee of gentlemen having no relation to the Academy, selected by the donor. The award is announced on the day of the annual Commencement.

The successive Presidents of the Board have offered prizes in accordance with the foregoing conditions.

POETRY.

In 1855, a gentleman of this city, being desirous of promoting the interests of the Free Academy, and of advancing the cause of learning, offered a "Prize to the best Declaimer of a selected Poem," the competitors to be selected, one from each of the three higher classes, by the students of said classes, respectively; the exercise to form a part of the Commencement, and to take place at the same time as the speaking for the "Prize of the President of the Board of Education," and the award to be made by the Committee designated to confer the prize in prose speaking, and at the same time and place.

PRIZE FOR TRANSLATION FROM THE FRENCH.

In 1857, a gentleman offered an annual prize for the best translation from French into English. The translators contending for the prize are elected by ballot from among the students in the three higher classes who have studied French in the Free Academy, two from each class, and the six so chosen are the only competitors for the prize. The translation is made after the summer examination, on a day appointed by the Principal, and within a given time not exceeding three hours. The passage is selected by the Professor of French in the Free Academy, and the merit of its translation judged by its excellence both in

interpreting the foreign text, and in the use of good idiomatic English ; the former point being decided by the Professor of French, the latter by the Professor of English. These two Professors form the Committee of award, together with the Principal, to whom they report according to a scale of merit previously agreed upon, and from an addition of those reports the name of the successful competitor is ascertained. Each translation has appended an assumed name or motto ; and a sealed letter bearing the name or motto, and containing the true name of the translator, is left with the Principal.

PRIZE FOR PROFICIENCY IN FRENCH.

In 1857, the proprietors of the *COURRIER DES ETATS-UNIS* offered a permanent subscription to both its Daily and Weekly issues, as an annual prize to be awarded to each of those students whose aggregate amount of merit-marks in French should be highest in the Freshman and Introductory Classes, respectively.

PRIZE SPEAKING.

Agreeably to the institution of the before-mentioned "Prizes for Declamation," there is held on the Friday preceding Commencement, at a place provided by the Executive Committee, a public exhibition and trial of the skill of the students of the Free Academy in declamation.

In accordance with the intention of the donors, the speakers do not deliver their own compositions, but speak selected pieces in prose and poetry from American and English authors ; the proportion of prose to poetry being two to one, and the selections approved by the Faculty.

The President of the Board of Education, each year, selects a committee of gentlemen having no relation to the Academy, to judge of the merits of the competitors, and award the prizes.

JUNIOR EXHIBITION.

On the evening of the last Friday of the examination in February, is held in the large Hall, or such other place as the Executive Committee on the Free Academy may designate, the exhibition of the Junior Class, at which time there is public speaking of original compositions, by members of that class; they are appointed by the Faculty, in November in each year, from among those whose standing in the last preceding Merit-Roll is not lower than "good."

NEW YORK MEDICAL COLLEGE.

The Trustees of the "New York Medical College," gratuitously admit to its course of instruction any number of young men of good moral character, not exceeding five at any one time, who shall have distinguished themselves for good scholarship in the "Free Academy" of the city of New York, upon written evidence of such qualifications being furnished to such Trustees by the Faculty of said "Free Academy."

SOCIETIES.

FREE ACADEMY ASSOCIATE ALUMNI.

This society consists of the Graduates of the Institution. Its regular meetings are held annually on the day after Commencement at the Free Academy. The officers are a President, Secretary, and an Executive Committee, composed of three members chosen at large, and one member from each class, all of whom are elected annually. The following are the officers for the present year :

PRESIDENT.

Alfred George Compton.

SECRETARY.

 1859—Solomon I. Woolf.
 1860—Thomas Allison.
 1861—Roland G. Mitchell.
 Members at Large, { Franklin S. Rising.
 { Everett P. Wheeler.
 { Nichols H. Babcock.

In 1857 the Society established a fund for the purpose of assisting such students of the Free Academy, as might otherwise find difficulty in completing their academic course. The management of this fund is committed to five trustees, elected for the period of five years, one trustee being elected each year.

The following are the present trustees :

Alfred G. Compton,	term expires, 1862.
Charles L. Holt,	“ “ 1863.
Franklin S. Rising,	“ “ 1864.
Smith Bloomfield,	“ “ 1865.

LIBRARY.

The Library contains a large collection of valuable and well-selected books, and is constantly increasing through additions from the Literature Fund, and from donations by private citizens.

In 1852, EPHRAIM HALBROOK, Esq., of this city, bequeathed the sum of \$5,000, to be applied, at a future period, to the purchase of books for the library.

In 1857, SETH GROSVENOR, Esq., of this city, bequeathed to the Board of Education the sum of \$30,000, to be permanently invested, and the income thereof to be expended, under certain conditions, in the purchase of books for the library.

*Extract from the By-Laws of the Board of Education concerning
the Library of the Free Academy :*

§ 42. The Principal shall at all times have access to the Library, and shall, on application to the Librarian, be entitled to the free use thereof.

§ 43. The Professors and Tutors shall, at all times, on application to the Librarian, have access to the Library, and enjoy the right of taking books therefrom, provided no Professor have more than six, and no Tutor have more than three volumes belonging to the Library at any one time in his possession.

§ 44. The students of the Senior, Junior, Sophomore, and Freshman classes, shall be entitled to the use of the Library, under the conditions hereafter mentioned.

§ 45. The Library shall be opened to students every alternate Friday throughout the Academic Terms, from 8½ to 9 A. M., for the return of books, and from 3 to 3½ P. M., for the delivery of books ; and it shall be the duty of the Librarian to be in the Library at those times.

§ 46. Students shall make application for books in the following manner :

a. The Librarian will furnish blank certificates, in form as follows :

[*Space for date.*]

[*Space for Name, Class, and Section*], having, during the past two weeks, obtained the Library average (0.75) for scholarship in my department, and having received no mark of demerit for misconduct, and having been punctual in attendance, is declared to be entitled to the use of the Library, provided no objections exist on other grounds.

[*Space for Signature.*]

[*Space for Signature.*]

[*Space for Signature.*]

b. The above certificate, dated the previous afternoon, and signed by at least three of the Professors or Tutors, whose recitations the student may have attended during the preceding two weeks, must be handed to the Librarian at the stated time on Friday morning, together with any book belonging to the Library, which the applicant may have drawn therefrom.

c. On the back of this certificate, thus dated and signed, the applicant will inscribe, in the order of his preference, the titles of any books which he may desire. He shall be entitled to the first in order not in use, unless its removal from the Library be forbidden, BUT IN NO CASE SHALL ANY STUDENT HAVE MORE THAN ONE VOLUME BELONGING TO THE LIBRARY AT ONE TIME IN HIS POSSESSION.

d. The books thus applied for having been selected, and recorded by the Librarian during the day, will be delivered to the applicants the same afternoon at three o'clock.

§ 47. No book shall be taken from the Library, UNDER ANY PRETENCE, BY ANY PERSON, without the authority of the Librarian, and every book taken shall be duly recorded in a register provided for that purpose.

§ 48. No book shall be retained by any instructor or student for a longer period than two weeks, without renewal, except books of reference used by an instructor in his recitation room. All books shall be returned one week before the end of the Term.

§ 49. Should any student wish the renewal of a book already in his possession, he must fulfil every requirement of the 46th section, exactly as if he desired another book; and should any application have been made for it in the meantime, his right thereto shall cease.

§ 50. The penalties for defacing, mutilating, or losing books belonging to the Library, shall, in the case of students, be as follows :

a. For defacing a book, suspension from the use of the library for not less than one month nor more than three months, at the discretion of the Librarian, or until the injury be repaired, to be entered in the library account.

b. For mutilating or losing a book, complete restriction from the use of the library until the book be replaced, rebound, or repaired, as the Librarian may require.

§ 51. Any book delivered to any student or instructor, whether text-book, book of reference, or library book, shall constitute a charge against him of the cost of the book, to be paid by him unless it be returned in good condition, or its loss or injury be satisfactorily accounted for to the Librarian ; AND, IN CASE OF A STUDENT, UNLESS THE SAME BE PAID FOR OR REPLACED WITHOUT DELAY, HE SHALL BE DISMISSED FROM THE ACADEMY. In cases of gross carelessness, or wanton injury of the books, punishment shall be inflicted in addition to reparation.

§ 52. The Librarian shall report to the Executive Committee, at the end of each Term, the condition of the Library, the books injured or lost, and the persons by whom they were lost or injured.

Catalogues of the Library may be obtained by applying to the Librarian.

LABORATORY.

The Laboratory of the Free Academy is well provided with the necessary apparatus of glass and porcelain, and with an extensive suite of chemical preparations, to which additions are constantly being made by the Professor having charge of the Department. The Physical Cabinet is also large, and contains most of the best French and German instruments, imported expressly for the Academy.

APPARATUS.

The Apparatus of the Free Academy consists of full sets of French, German, English, and American instruments, to illustrate the subjects of Surveying, Navigation, Mechanics, Sound, Light, Heat, and Electricity. The subject of Civil Engineering is illustrated by fine French models of oblique bridges and Topographical Drawing; and models of Groined Arches and Spiral Staircases.

NATURAL HISTORY.

The department of Natural History is provided with a Cabinet of Geological, Mineralogical, and Conchological specimens, the last presented by Townsend Harris, Esq.

The subject of Physiology is illustrated by Skeletons, Manikins, &c.

DEPARTMENT OF DRAWING.

The Drawing Department is furnished with the following classes of models and casts:

1. Models of Geometrical Solids.
2. Models of Mouldings.
3. Casts of Architectural Ornaments, of different styles.
4. Cast Models of some orders of Architecture.
5. Busts, Cast from Antiques, and Masks from Nature.
6. A selection of Casts taken from antique Sculptures of the Parthenon and the Temple of Minerva, in Athens,—called “Elgin Marbles,”—partly Bas-reliefs and High-reliefs, partly Statues. These were presented by Charles M. Leupp, Esq., of New York.
7. Different Casts of Bas-reliefs, with Mythological Figures.
8. Different Casts of Torsos and portions of the Human Figure, partly from Antiques, partly from later Sculptures.
